

single linked list

each node pointe to a map

this diagram represent how we stock config file
At the vertical is a nested linked list
At the horizontal is a single linked list

nested linked list

each node pointe to the second linked liste

```
server
{
    server_name exemple_1.com;
    listen 8080;
    allow GET POST
}
```

```
server
{
    server_name exemple_2.com;
    location /lenox
    {
        root home/users
    }
    listen 5050;
}
```

```
server
{
    allow GET POST;
    location /admin
    {
        root /home/users
    }
    server_name exemple_3.com
    location /www
    {
        root home/users
    }
    listen 3000
}
```
